

The Golden Gate Chapter Dowser's Newsletter

March - May 2005

The Golden Gate Chapter of the American Society of Dowsters, Inc., whose mission is to embrace those who wish to experience higher consciousness through dowsing

We meet the third Saturday of September, November, January, March and May. The suggested donation is \$5 ASD members, \$7 non-members.

"The Development Of The Virtual Cone Pendulum And How To Use It"

On **Saturday, March 19th**, Paul Stone will be speaking on the Virtual Cone Pendulum, which was developed by the French in the 1930's and is currently utilized in research by the Egyptians. It is used to access many different subtle energy fields. Paul will show how many of the 12 subtle energies that have come to earth, of which color is one manifestation, is used to access spiritual energy. By using a Virtual Cone Pendulum he will demonstrate how to detect these energies, and how to balance and transmute energies when they are harmful to humans. He will also show how to create the context for spiritual energies to manifest.

Paul Stone is a long time student of the Esoteric Arts including Huna, Reiki, Intuitive Energy Medicine, Tai Chi, Qi Gong, and dowsing. At the 2003 West Coast Dowsing Conference, Paul became exponentially inspired to see the possibilities and relationships to all he has studied with the use of dowsing. He continued his studies with subtle energy and the Virtual Cone Pendulum with Robert Gilbert and Ibrahim Karim. As a general contractor he refines and uses his knowledge practically to create energetic spaces that are life enhancing for people to live in. Paul can be reached at (707) 849-2540; pkstone@neteze.com.

"Animal Communication"

On **Saturday, May 21st**, Dr. Laurie Moore, LMFT, CHT, will share stories of her communication with the whales, dolphins, felines, canines, lizards, doves and bugs, flowers and trees. Animals have been her guides in ascendance, unconditional joy, unconditional peace and unconditional love. She will talk about how she is able to communicate with the animals. She will give you tools and methods for utilizing your own ability to communicate with animal friends. She will discuss the animals ability to network with each other and ascended masters, angels and spirit guides . She will discuss animals who are ascended masters.

Dr. Laurie Moore is a miracles therapist, animal intuitive and channel with a private practice in Santa Cruz, CA, dolphin and whale trip seminars in Hawaii and Tonga and sessions internationally by phone. THE PRESIDENT'S CORNER

Shirley speaks

All ASD members: this society needs a strong, energetic and cooperative Board of Trustees committed to the success of dowsing and our society. The future of our society is in your hands, and it is very important that you vote for the potential Trustees that you dowsed will do the best job. The ballot needs to be at ASD Headquarters before March 15th for your vote to count.

I was delighted to read the "Water Prayer" starting on page 42 in the Fall 2004 Quarterly Digest. "I call on the divine powers of nature, our guides and angels to bless this water and provide it with the proper frequencies to remove unnatural impurities and energies; to remove the detrimental and unneeded organisms, miasms, prions and toxins in our bodies; to balance our chakras, energy patterns and meridians; to gently cleanse all waste material from our cells and bodies; and to draw us closer to our highest potential as loving spiritual beings while raising our level of consciousness continuously and bestowing health and comfort to our physical bodies. Let each drop bless and charge every other drop it contacts, on and on. I call on this program to be installed continuously for now and into the future for as long as it is appropriate for each individual. In deep gratitude, amen."

This prayer is directed to water. You either say it to the water or set the water on a copy of the prayer before drinking the water. Holding a copy of the prayer greatly expands your energy field. Whatever you set on the prayer will have its field expanded in seconds.

The work on this prayer was inspired by Dr. Hulda Clark (www.drclark.com), by Raymon Grace (www.raymongrace.net) and by Joey Korn (www.dowers.com). Be sure and read the entire article. Harold Koontz, Ph.D., and Sue Gridley, Ph.D. would be very interested to know if others get similar results. Email: harold77@ypisp4u.net.

The March "Question of the Month" is how do you use dowsing to define your personal mission statement or life goals to have your dreams become your reality? I am eagerly awaiting your response to this question especially since Jean Slatter gave us wonderful information about using dowsing for the achievement of your goals. We all deserve a fulfilling life lived with purpose, intention and in harmony with our heart's desire!

It is the time to make plans for the Second International Can-Am Dowers Conference in Issaquah, Washington, May 27-30. For more information, visit: www.can-amdowers.org or contact Penn Bell at (425) 485-8058; bellasoc@isomedia.com.

Be sure and visit www.dowersofthewest.org for information on other chapters in the area, interesting articles, a listing of professional dowers and upcoming conferences. We will have a booth at the upcoming Harmony Festival in Santa Rosa, June 11th-12th and SolFest in Hopland on August 20th-21st.

Blessings to us all,
Shirley
